

The Energy Leadership Development System is firmly rooted in 7 levels of awareness, which will catapult your energy and performance to a level that is perceived by all those around you as the "ideal" for your role.

The Energy Leadership Index (E.L.I.) is a one-of-a-kind assessment that enables leaders to hold up mirrors to their perceptions, attitudes, behaviors, and overall leadership capabilities. It is the only assessment of its kind and one that has a complete, clear, customized coaching program associated with it. The coaching program is the Energy Leadership Development System. This system is made of an introduction and twelve developmental segments. The program is completely customized to each leader, and offers a baseline for current level of awareness, performance, and effectiveness. Leaders create their personalized developmental roadmap and quickly progress toward becoming an Ideal Leader.
